This bill will limit my family's access to the quality, nourishing food that we love. Small farm stands have become a major help in supplying my household with fresh produce - when raising a family of many, this is a big deal. Not only do these farm stands provide food to us, but we are happy to help support them and their operations. These small farms do so much for our communities, small businesses, families, and even the health of our soil. Please rethink this bill
