Committee:

House Committee On Agriculture, Land Use, Natural Resources, and Water

Measure, Appointment or  
Topic: HB4153

Please oppose this measure. I have sever food allergies to most preservatives including wax on apples. Because corn derivatives are in many farming practices I am left looking for food outside of grocery stores often. By shutting down farm stands you limit my access to food.

Consider a life of having to monitor every item that goes in or on your body. Planning ahead before you leave the house. Sometimes farm stands are the only place I might find food I have not brought with me. I'm not the only one MCAS and food allergies are growing quickly since Covid where studies on MCAS were done. Please say no.
