Measure, Appointment or Topic: HB4153

I grew up on the farm where my maternal grandfather, Henry Hoefer, grew hops, green beans and peppermint. My husband and I now have several dozen acres of hazelnuts. Our grown children are invested in the farm and have plans for becoming involved in farm sales in the near future. Why in the world would Oregon put another barrier in the way of their hope to be a success? Farming has always been a gamble, as my Daddy used to say, but there is no reason I can see for stacking the odds against those who choose to try to make a living for their families off of the land! Please support this measure!
