House Committee On Revenue

Measure, Appointment or Topic:

HB4125

Hello,

I'm writing to voice my support in favor of kicker reform. Oregon is perpetually not meeting the needs of our kids. And the place where the rubber meets the road for kids is our schools. My daughter's school has a part time counselor for hundreds of kids, a part time librarian for the same, a part time vice principal, and limited arts and music programming. Why are we providing less than what most of us had growing up and yet expecting more. Take the kicker money, invest in schools and other meaningful state infrastructure, and let's bring our state in the 21st century.

Sincerely,

Andrew Yeoman
