Oregon was just ranked 1st in the nation for the worst place to retire. Adding additional layers to our tax burden is not the direction Oregon needs to go, now or in the future. Please focus your energies on reducing government spending. Everytime you raise taxes every business in the state has to raise prices to remain in business. This has created undue hardship on the working class, the people you say you are trying to protect. Additionally it makes us less competitive as a whole. Businesses are leaving the state and taking jobs with them.
