Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB4088

Protecting safe access to abortion and other reproductive health services is essential. Abortion bans do not stop abortions from happening - they simply stop safe abortions from happening. Abortion bans kill women. We are witnessing the preventable deaths of women in states that have implemented abortion bans, and we do not accept that kind of irrational policy here in Oregon. Please pass HB 4088 and protect the health and lives of women!
