House Committee On Revenue

Measure, Appointment or Topic:

HB4134

Oregon's wildlife are hurting now, especially Oregon's mule deer. What makes the biggest difference for wildlife and their existence in perpetuity is good habitat. Having these dollars earmarked especially for wildlife is a GREAT move especially since the bill won't be footed by the majority of oregonians. It makes sense to have those that come to view and utilize Oregon's natural resources contribute to their benefit.
