Measure, Appointment or Topic: HB4088

I rise in support of HB 4088. Government OUT of Oregonian's healthcare decisions! How many times, how many ways do we have to say it? Hostile government ideologues, out-of-state actors, and religious zealots have no place dictating our lawful and private medical choices.

I am the proud father of three queer grown children, all of whom are under attack by the rhetoric and policies of current administration. They are not second class citizens, they deserve the full force and protection that all of us deserve. They deserve health care without bias and with dignity and privacy. HB 4088 is a SHIELD against the angry, misinformed, and dangerous anti-LGBTQ rhetoric ever becoming law.

I stand with health care providers, unions, the ACLU, the League of Women Voters. Protect our health care!

Protect healthcare workers. Protect Oregonians. Protect our privacy. Slow the roll of this administration's reactionary demonization of queer Oregonians.

Thank you,  
Kell Fox
