

Submitter:

Bob Marquis

On Behalf Of:

Committee:

House Committee On Education

Measure, Appointment or Topic:

HB4079

Dear House committee on Education,

As a retired career educator, I am writing in support of HB4079. I taught elementary school students from 1972 -2004, and I understand the importance of safety in school for students. It is unthinkable for me to see federal agents entering school property to apprehend a student or his/her parents. Passage of this bill protects against such occurrences by directing school boards to create clear policies regarding a response to immigration agents entering school property.

I hope you agree with me and will approve this bill and forward it to the floor of the legislature for passage. Thank you.

Sincerely,

Robert Marquis
