

School Meals for All (SB 1581)

To Senate Committee on Education,

Growing up getting groceries was tough for my family, the bills always came first. We had government assistance but only covered dinners for the month. So, my siblings and I would participate in the free food programs from our schools. We relied on all opportunities: breakfast, lunch, and even in the summer we relied on the bus lunches. It is because of these programs my siblings and I were able to feel full, and I believe it would help families now and in the future.

Thank you,

Dyandra P.
