Committee:

House Committee On Revenue

Measure, Appointment or Topic:

HB4125

Just because the state is bad at accounting does not mean we are flush with money! Don't get me wrong I love getting a little kicker back after taxes, but I would rather this money goes to TRANSPORTATION! Or literally anything else that helps this state. Portland has a budget crises, we need funding for our transportation bureau, use the kicker for that! Or build better bussing in rural areas! Literally anything except giving the wealthy more money back as tho we have it free to give!
