

Submitter:

Dawn Perkiss

On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB4145

Chair Kropf and Members of the Committee,

HB 4145 deserves your support because it honors the will of Oregon voters who passed Measure 114 in 2022 and ensures those life-saving policies can be implemented effectively and responsibly. This bill provides clear, practical guidance to state agencies and law enforcement so they can carry out the law as intended - consistently, fairly, and with public safety as the top priority. By addressing implementation gaps and technical barriers, HB 4145 helps move Measure 114 from principle to practice, strengthening our gun safety framework while respecting constitutional rights. Passing HB 4145 is a necessary step to fully realize the voter-approved protections Oregonians overwhelmingly asked for.

This committee has already shown leadership on these issues, and I ask that you continue that work by moving HB 4145 forward without delay. Passing this bill will help ensure a safer future for our state and our families. Thank you for your service and consideration.
