House Committee On Judiciary

Measure, Appointment or Topic:

HB4138

My town is being turned upside down by masked ICE agents. We citizens have had to organize our own neighborhood watch to monitor for their tinted, unmarked vehicles, and we have to beg our local police to respond to calls for help when masked gunmen pull us over, as happened most notably in November. We want to see labels, markings, and faces. We want accountability for these cowards. Remove the masks, prevent our police departments from following suit, and require ICE to identify who they are on their person and on each vehicle.
