

Submitter:

Lucille Ausman

On Behalf Of:

Committee:

House Committee On Education

Measure, Appointment or Topic:

HB4079

Schools should be places of learning and stability. Since federal guidance designating schools as “sensitive areas” was rescinded in 2025, increased law enforcement activity on and around school campuses has created fear and confusion among students, families, and staff.

HB 4079 establishes clear, statewide standards so schools can respond quickly, communicate transparently, and keep students and families safe.
