

Submitter: Robert Savage
On Behalf Of:
Committee: House Committee On Revenue
Measure, Appointment or Topic: HB4125

I will say this until somebody listens.

Oregon is ranked #1 in the worst place to retire. Continue on this pace and I suspect you will see a mass exit in the next few years of people that just want to keep their hard earned money.

Yes, I understand the issues with funding PERS but that was not the fault of the people but the fault of our State government. Please spend your resources on cutting plans and programs and not taking moneys from hard working Oregonians. Our cost of living goes up every time a tax is added and I'm afraid the state will be in a recession if we don't curb our governmental spending.

Thank you
