Oregon is an incredibly special place, and our state's identity is closely tied to its rich natural heritage, including native fish, wildlife, and the habitats that support them. Oregonians' love for the outdoors is known throughout this country and beyond. Oregonians like me are proud of our natural heritage and want to see it thrive for future generations. This proposed law will help to protect wildlife from predators (developers) to harm nature. Future generations should be able to enjoy our beautiful state the way we have been able to. Once we stop protecting it can never come back. It is our job to protect for all of mankind!
