

Submitter:

Meadow Mcgalliard

On Behalf Of:

Committee:

Senate Committee On Judiciary

Measure, Appointment or Topic:

SB1583

I oppose this bill based on the shift of funding supervision to the judicial system and the lack of direct confirmation of peer support as a part of the system. Allowing funding to remain under it's current jurisdiction as determined originally by Measure 110 would allow the continued development of mental health services and harm reduction to continue stabilization, as well as avoid the harm brought about to marginalized populations if care were to be organized under the judicial system.
