

Submitter:

Marjorie DeBuse

On Behalf Of:

Committee:

House Committee On Education

Measure, Appointment or Topic:

HB4079

Dear committee members,

As a career educator in the public schools of Eugene and in the College of Education at the University of Oregon, I feel it is imperative that school boards have concrete, detailed plans to deal with the problem of immigration agents coming into school property to detain students or their parents. Schools should be a place that children and families can be assured are safe places. Please approve of HB4079 and forward it to the floor of the legislature for passage. Thank you.

Sincerely,

Marjorie DeBuse, PhD
