

Submitter: Anne Paulson

On Behalf Of:

Committee: House Committee On Revenue

Measure, Appointment or Topic: HB4125

I am an educator and also mother of a 2nd grader in Portland Public Schools. I see first hand the lack of funds in our schools and the cuts coming. Elementary school class sizes of 30+ children with only one teacher. Cuts to reading intervention, libraries, music and arts to name a few. Every student in Oregon deserves access to an amazing public school education.

I support HB 4125 to modernize the kicker to put money into public schools.
