Measure, Appointment or
Topic:

HB4153

I fully support this bill as it allows small farmers to recover some of the costs that it takes to run a small farm and gives direct public Access to healthy fresh healthy food at competitive prices. This bill is not only good for the sustainability of small farms it also allows public Access to healthy and affordable fresh food at a time of tighter economic circumstances and the rising cost of everyday needs. I think this is a bill that both sides of the political spectrum should be able to come together on in agreement. Please pass this bill.
