Committee:

House Committee On Revenue

Measure, Appointment or Topic:

HB4125

I support getting rid of the kicker. Look, I like getting a little extra money back from the government as much as the next person, but I know, and you know, we can't afford to be continuing with this faulty accounting process that ultimately gives wealthy people more money. Keep the money and use it to fund local projects - Portland's transportation system needs help! As a matter of fact, so does ODOT if the transportation bill is rescinded. Help rural areas improve bus service! Fund schooling! Its about time we get rid of the kicker so that we can support our communities more, especially with the lunatics in the federal government taking money that is rightfully distributed to us, we need to build and maintain as much self sufficiency as possible.
