Measure, Appointment or HB4153
Topic:

I'm writing on behalf of local farms, farmers and farm stands who provide locals the availability of nutrient fresh and unique foods not available in other locations. Local farms don't have to pick produce before maturity to travel longer distances. And cottage industries can provide fresher foods unique to the needs of their communities. They help give more options and help supplement availability of products that have limited presence in other retail venues. Especially organic choices. Please do not restrict our options by implementing this unnecessary Bill HB4153. Thank you , Claudia Parke
