

Submitter: Stephanie Jarvis
On Behalf Of:
Committee: House Committee On Judiciary
Measure, Appointment or Topic: HB4145

To whom it may concern

Leave our gun rights alone.

Don't tread on us. Our gun rights are protected by our 2nd amendment as citizens of the United States of America.

This continuous gun grab is unconstitutional and completely out of control. This is a waste of taxpayer money and time to push this garbage legislation and cause us to stop our daily lives to fight against a government that hates us.

Oregon government is about as tyrannical as it comes. The state is Stealing our money for illegal citizens and the "homeless industrial complex" and all fraud that goes into their housing, healthcare, and illegal voting applications submitted through our DMV.

And, let's not forget how many illegal citizens and felons are acquiring guns by lying on the forms (and various other ways) in a state that has such heavy restrictions.

It's proven that these gun laws only work on law abiding citizens trying to exercise our rights legally.. it's not working on the guys we need off the streets and out of our country. Our government fails to prosecute and deport or arrest the bad people, Essentially harboring and protecting criminals by them out of jail free, giving them needles for drugs, and giving them housing to commit various crimes.... All this on the taxpayers dime.

And then, with all the security failures to the actual citizens of this ONCE great state, you want to take more and more of our gun rights away.

Our government is a disgrace. All who have supported any of these gun bills should resign because you are intentionally failing your constituents and disregarding our 2nd amendment which you've sworn to protect.
