Re: HB 4125

I am writing to confirm my support for HB 4125. The Kicker prediction has missed in every biennial forecast over the past decade to the detriment of the majority of Oregonians. It is impossible to adequately factor for unexpected events such as pandemics, natural disasters such as wildfires, or economic downturns. We need to stabilize the General Fund and ensure more rational budgeting. Please pass HB 4125.

Thank you,
