

Submitter:

Sam Perkins

On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB4088

Im just trying to live my life leave me and my body alone the fact that you are even giving people the option to argue this is disgusting and stupid everyone deserves the right of atonomy and the freedom to be who they are there are so so many more important things to care about other then me and what i do with my body im not doing anything wrong you are you are the problem letting people make votes that hurt a majority of the population you should be ashamed im tired of being scared and unhappy because other people who have never met me have an opinion of what i should do with my body this is why we have biggots running our country can y'all please actually fix the problem instead of letting people vote our rights away

Please and thank you

A very pissed trans persons
