Measure, Appointment or Topic: HB4088

Dear Chair Kropf, Vice Chairs Chatzen and Wallace and Members of the House Committee on Judiciary,

I am writing today to voice my strong support of HB 4088 (2026 session) relating to protections for gender-affirming care and reproductive care for both for patients receiving that care and the medical professionals providing that care. Patients and providers are facing increasing threats of prosecution and loss of privacy due to current policies of the federal government as well as some individual state laws.

HB 4088 is essential for protecting access to, and privacy of, gender-affirming care in Oregon by prohibiting cooperation with out-of-state prosecutions and shielding local providers. This legislation strengthens the state's commitment to ensuring women and gender diverse people can access necessary life-saving medical care free from legal harassment or threats, upholding bodily autonomy.

I strongly urge you to support HB 4088.

Respectfully,  
Carrie A. Corson
