Committee: House Committee On Early Childhood and Human Services
Measure, Appointment or HB4022
Topic:

This sounds like a wonderful bill, however, our state cannot continue to throw money at things we already have available to every family in this state. Remember the public library? Yes, it's free and already funded. The Imagination Library is wonderful because it's privately funded, but to change it to a state program in a state that is struggling to fund things we already should be funding, is ridiculous. Please vote no for this bill. Let's save this idea for a day when we have a surplus in funds.
