Committee:

House Committee On Revenue

Measure, Appointment or Topic:

HB4125

It is disgusting for this committee and the democrats in charge to take money out of the pockets of hard-working Oregonians to fund their worthless projects. If you want to lower the kicker, then lower our income tax rate and then there will be less kicker to return. The idea that you would stoop to changing the formulas just to suit your whims is despicable. Do your jobs and represent the people that elected you. Spend our tax dollars wisely and balance the budget.
