

Submitter:

Waylon Wymore

On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB4145

>gives people with different jobs different rights under tge Bill on what they may purchase or use as a firearm or according.

> Does not address military personnel

> potential infringement on purchasing from accusations and not due process.

> puts averages low to middle class citizens in a position especially in rural areas to not be able to afford or receive training on permit to purchase.

>wait time infringes on right to purchase and own firearm. Puts people especially at risk to not be able to defend themselves while waiting on permit to purchase.

> This is clearly a money grab and politically motivated Bill that will make no one safer, criminals will still have guns, and clearly violates 2nd amendment and state constitution.
