HB4138

I am deeply concerned by the fact that ICE “agents” are driving unmarked vehicles with tinted windows and the agents have covered faces. How is anyone supposed to know if they are actually law enforcement or an average citizen with weapons demanding our community members to follow their orders? Our local and state agencies need to take action to ensure these “agents” (which are absolutely not trained as such) are at least held to identifying themselves, showing accurate warrants, and share ALL data (including body cam footage) with local, state, and federal government officials. Hold these individuals and their “agency” accountable for their illegal actions!
