Conrad Brunkhorst

On Behalf Of:

Committee:

House Committee On Revenue

Measure, Appointment or Topic:

HB4125

I strongly oppose HB4125. Businesses should be responsible for the mistakes they make, and not just be bailed out using our taxpayer dollars every time. We do not receive anything from this and it's instead actively taking money from all of us, just to instead help those who are already wealthy. This bill will be expanding the already vast wealth divide that exists in our state. We should instead be investing this money back into our cities and people. Fund our schools so our children can have the resources to be able to learn and grow up in a nurturing environment.
