Re: HB 4125

I am writing to confirm my support for HB 4125. Budgets should be flexible and responsive. It is nigh impossible to predict and plan for the myriad of unexpected events that Oregon and our citizens may face years in advance. It is obvious that we need a system that will stabilize the General Fund and will prioritize the average Oregonian, rather than the super-rich who are to blame for inflated housing, grocery, and livelihood costs.

Thank you for your consideration. Sincerely,
Charlotte McKernan-O'Brien
