

Submitter:

Sinead de Beauvoir

On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB4088

As a citizen of Oregon, I support the trans community and want our legislature to do so as well. Please pass this incredibly important legislation. I support this bill, because I believe that healthcare choices should remain confidential and be made between patients and their doctors. This bill is vital because it would protect the right for people, regardless of residence, to securely receive necessary healthcare while in the state of Oregon, without fear.
