

Submitter: Jonathan Pulvers

On Behalf Of:

Committee: House Committee On Revenue

Measure, Appointment or Topic: HB4125

For too long, Oregon's outlier of a revenue system has concentrated extraordinary power in the hands of the unelected state economist to forecast around the kicker. Please support this common-sense revision to bring our state a step closer to a sane and predictable revenue system. Thank you! - A parent of 3 small. publicly educated children.
