I am in support of this bill because all of these farms mean so much to me and my community. For me personally, I have grown up going to these farms and have fond memories of learning about the farm animals and being outside in a great environment. Later in life, Topaz Farm provided employment for me and I have learned valuable life skills and met such great people. All the people I have interacted with love Topaz Farm and come back every year. Not passing this bill will limit the effects Topaz Farm and others can have on our community and children growing up. I hope the right choice is made and agritourism can continue to be an option in our community.

Thank you.
