House Committee On Judiciary

Measure, Appointment or Topic:

HB4088

Americans have experienced relentless attacks on our personal freedoms that undermine our basic rights and threaten access to essential healthcare, including abortion, contraception and healthcare for transgender people. It's time we take action to explicitly protect Oregonians equal rights, including the freedom to make private and personal decisions about our health, life and future. We can't control what extremist politicians do elsewhere in the country, but Oregonians can come together protect these rights in our state for generations to come. We must make it clear that everyone has equal rights to make private and personal decisions about their life and health, regardless of their sexual identity, gender identity or ability to become pregnant. 7 of 10 Oregon voters believe abortion should be legal in all, or most cases, and more than four in five voters want no government interference in these private and personal healthcare decisions. Nearly 75% of Oregon voters believe all people should have access to healthcare they need regardless of their gender identity. Let's act from love and compassion in protecting each individual's right to make their own healthcare choices.
