House Committee On Judiciary

Measure, Appointment or Topic:

HB4145

According to tge CDC the Overall Gun deaths statistics increased by 21% from 2014 to 2023! 642 gun deaths in Oregon in 2023. Primarily suicides. This measure provides supports to limit easy access to guns

Specifically :

Permit-to-Purchase Implementation: The bill works to establish the framework for requiring a permit before purchasing a firearm, aiming to ensure buyers are screened and trained.

Increased Fees & Times: The bill increases the cost for a permit (reported as rising from \$65 to \$150) and doubles the processing time for permits from 30 days to 60 day

Each of these measures will help to save lives as well as cost to Oregon . It is not taking the right to bear arms away from individuals deemed safe to carry.

I implore you to save lives and support this bill
