

Submitter:	Robert Hight
On Behalf Of:	FEVO
Committee:	House Committee On Judiciary
Measure, Appointment or Topic:	HB4145

I am a strong advocate for gun sanity---gun safety when it comes to the contrast to how it was when I was a child and what children are having to live with today. Unsafe homes, schools, churches, streets, malls, just anywhere they are exposed to violence in their personal lives.

I voted for Measure 114 and was very disappointed when it was voted in and a judge was able to stop implementation of common sense ways to lessen the number of people dying or being injured by gun fire.

Please help with your action and vote to get HB 4145 passed so that the process can continue. I have used and been around guns my whole life yet it is different now. More people, more guns, less regulation makes for less safe homes, communities and cities in our state. Thank you for imagining how you could bring this about in our beloved Oregon.
