Committee:

House Committee On Revenue

Measure, Appointment or Topic:

HB4125

Imagine our schools funded. Imagine students having the resources they need to learn and grow and become active participants in their community. Imagine schools having enough staff to feel supported and able to do their jobs.

I am a public school teacher in Oregon and I support the kicker helping education. Our schools are falling way behind other states and in all honesty it's embarrassing. It is an investment in the future of our state.

Thank you,

Cory Bettinger
