Melissa Gilley

On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB4145

Please understand that we need more tools for gun violence prevention. While firearms are the leading cause of death for children in the US, we can and must continue to protect and prevent more senseless tragedies. Too many families are torn apart every year by firearms and common sense measures can help. Thank you for supporting the safety and well being of Oregon children and families.
