

Submitter: Kim Wallis  
On Behalf Of: Law enforcement officers in Oregon  
Committee: House Committee On Judiciary  
Measure, Appointment or Topic: HB4138

This is bad legislation and nothing less than attempts by leftist Oregon legislators to place more limitations on law and order and law enforcement.

Criminals, agitators, and other troublemakers doxx law enforcement officers and their families on a regular basis.

This one-sided bill does nothing to protect law enforcement officers from doxxing. It should be amended to provide severe criminal penalties with mandatory minimum jail time, civil penalties, and a right of law enforcement to sue people and organizations who doxx them and their families for damages of at least \$25,000 per violation.
