

Submitter:

Arianne Sperry

On Behalf Of:

Committee:

House Committee On Revenue

Measure, Appointment or Topic:

HB4125

As I watch the direction our country is headed, I am reaching the conclusion that a functional public education system is critical to maintaining the middle class and supporting democracy in our country. Here is a topic where Oregon's Legislature has the authority and opportunity to make a difference right now! Please invest in our children's future and the future of our country by supporting kicker reform this session. Thank you! (mom of two kids in Portland Public Schools)
