Measure, Appointment or Topic: SB1505

Dear Legislators,

There is indeed a crisis in elder care staffing but the creation of this workforce standards board is not the solution.

While CCRCs are currently excluded from the bill SEIU has explicitly testified their intention to bring all workers doing elder care under the umbrella of the board once it is formed.

The solutions that they are providing are bad policy and will in fact make providing care to elders in CCRCs harder not easier.

Additionally, giving so much power to an unelected board hurts transparency and accountability. You, the legislators, were hired to make these decisions. Please don't give your power away to a union that is using this as a strategy to swell its membership and its coffers.

Thank you!

Adam Lane
