HB4138

As a citizen of the United States, and 70 years old, I have never heard of law enforcement that is unidentifiable. Where are the badge numbers? the names? the identifying logos or organizations? It is unconscionable that a lawless band of hooligans are pretending to act like enforcement within our state, encouraged, apparently, by our federal government. Where are we living? Where are our constitutional rights? I am very concerned about how this dictatorial presidency is wearing away our basic freedoms. Our right to know who is detaining us is fundamental to our democracy.
