

Submitter:

Tobiah Brown

On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB4114

Having safety in our own homes is imperative for a healthy Oregon. When I think of the children who are in homes when doors are broken down, or who come home to houses where this has happened, I am devastated. I know the impact of trauma on developing brains. I know how this big angry fear can be expressed through big behaviors and shouting voices. It can lead to self deprecating, self medicating behavior. Oregon deserves a better future than that. This bill is a pretense for that better future. Please consider it and pass it.

Thank you.
