Topic: HB4153

This is an attack against small scale farms who are consistently forgotten and don't get the big federal aid money. These people grow healthy local food and provide that to our communities and often at cheaper prices to many of Oregon's small, rural, and struggling communities. Don't get your greedy hands on people who make an honest living and are/or trying to make some extra money during these difficult times. It's a crime that this is even being considered!
