

Submitter:

Zachary Mallon

On Behalf Of:

Committee:

Senate Committee On Early Childhood and
Behavioral Health

Measure, Appointment or

SB1573

Topic:

This bill is so broad that it would prevent most existing harm reduction services in Oregon from continuing to operate. Harm reduction services keep people alive including people that have children or are family of children. Losing parents or other family members harms children. Seeing someone enter a building does not. Harm reduction saves lives and harm reduction organizations are already working hard to prevent deaths in communities across Oregon. This bill will cause more preventable deaths. Please vote no.
