

Submitter:

Paul Zastrow

On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB4114

Oregonians deserve to stay as fully accredited members of both the state and the USA., and that HB 4114 helps ensure that right. The US Constitution protects our right from unreasonable searches and seizures without a valid and legal warrant signed by a judge, that we can give our consent without undue pressure, and only in times of certified emergency.

Should the 4th amendment be abridged, we may take legal action against the individual(s) breaching our doors, including actual damages of a minimum of \$1,000 per occurrence; any attorney fees and any other adjudication levied.

Our homes are just that - secure in our places to live, that they are not to be breached as it violates constitutional protections. Any damages will be allowed to be compensated. Please ensure the sanctity and privacy of our homes as a place secure for our safety and life pleasure without interruptions.
