Government
Measure, Appointment or Topic: SB1577

I support this meat labeling bill for manufactured protein because consumers need to be able to determine if the food they are buying is lab grown or real meat. The livestock industry needs this protection from the sale of manufactured meat protein food from the eat meat that we raise. Today's consumer wants to know where there food is coming from so this labeling bill hill help them determine if it is real meat vs. manufactured.

Thank you for supporting this labeling bill.
