

Submitter: Stacy Wayne Durham
On Behalf Of:
Committee: House Committee On Judiciary
Measure, Appointment or Topic: HB4114

Hello,

ICE has clearly shown they're willing to violate constitutional law to accomplish the Trump administration's racist, xenophobic agenda of removing black and brown people from the US whether documented or not. Vice President J.D. Vance has emboldened ICE further by offering them "federal immunity" to continue their crusade of terror resulting in distress, violence, and death. This cannot go on.

This bill would allow citizens like myself a way to strike back in the courtroom should ICE agents violate my or my neighbor's constitutional rights. This is necessary accountability for enforcers of a regime the founders of this country would never stand for. My name is Stacy Wayne Durham, I am a Portland resident in NE Cully, and I urge unanimous support for this bill.

Thank you. -SWD
